DETAILED ACTION

Request for Continued Examination

1. The request filed on March 7, 2005 for an RCE based on parent Application No. 09/935,520 is acceptable and an RCE has been established. An action on the RCE follows.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. Claims 24-26 and 33-45 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Claim 24 appears to describe the embodiment of Figure 5. However, Figure 5 does not include a shelf "extending along at least one-half of the length of the chamber".

Allowable Subject Matter

4. Claims 1-5, 7-10, 14-15, and 32 are allowed.
5. The following is an examiner's statement of reasons for allowance: the vacuum tumbler for marinating food products within a liquid of independent claim 1 defines over

the prior art of record since the prior art does not teach, suggest, nor render obvious a rib extending inwardly from said interior wall generally toward the longitudinal axis at least one-quarter of the distance across said chamber along substantially the entire length of the chamber.

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Laurbak [Pat. No. 5,947,015] teaches a marinating device comprising longitudinal ribs.
